• Description ref n°8582 •

The house is accessed via an external staircase and is laid out as follows:

You enter the 10.81m² fitted kitchen, which has access to the basement. From there, you reach a hallway (with a hatch providing access to the attic, which could be converted). This hallway leads to a 29.42m² living/dining room with an open fireplace, and then to a 7.80m² shower room with a toilet and heated towel rail.

Furthermore, there are three bedrooms measuring 12.89m², 11.35m², and 11.48m².

Next, you enter a 9.84m² veranda providing access to the outside and a 12m² bedroom with an en-suite shower room of 9.84m². (Potential for expansion and rental income as a bed and breakfast.)

From the kitchen, a staircase leads down to the basement, where you'll find a 26.11m² workshop with water and electricity connections, then a 25.84m² basement with an electric door, followed by a 9.22m² laundry room, then an 11.93m² boiler room with a thermodynamic water heater, and finally a 20.99m² single-car garage with an electric door.

PVC double glazing

Manual roller shutters

Mains drainage

Heat pump

Roof renovated in 2025 and timber frame treated
